

# CSC 642/842 – Fall 2022

## Human-Computer Interaction

### Group Project – Phase 3

### Wireframing

Shah Rukh Humayoun  
Department of Computer Science

# Wireframing (Blueprints)

- In this phase, you need to create wireframes (blueprints) of your web/mob app using the **Claritee** tool ([claritee.io](https://claritee.io)). You will get the free professional edition access to Claritee when you register using your sfsu id.
- You need to submit this task in two forms:
- **1 – Online access to your wireframe:** Give access to your online wireframe on Claritee using the sharing option.
- **2 – Report:** A report containing all the screen-shots of your wireframes with a short description of each screen shot.
- Marks: 50 marks
- Deadline: **Wednesday, Oct. 19 (23:59)**
